

Members

We and our families are faced with a very significant health challenge with Covid-19. While we have the opportunity to protect ourselves on an individual basis within our homes etc we find ourselves much more vulnerable in a public setting...

All the guidance we have received to date from governments at all levels, is that "it's their recommendation to suspend and/ or cancel all possible activities involving group gatherings."

Therefore the Halton Outdoor Club (HOC) is cancelling or suspending all of its sport programs and or training activities involving Members at Large from this point forward until at least April 13th. At or near that date HOC will reassess the situation based on the best information available then and continue to communicate with each of you as to the status and hopefully resumption of our sports programs, training and organized events. This approach loosely parallels the current guidance provided by our Municipal as well as our Provincial and Federal governments.

To be clear;

- Spring Info Fair (scheduled for April 3, 2020) - postponed to an appropriate future date this spring
- Hiking program- all scheduled hikes are cancelled through until April 13, 2020
- Paddling Leadership Training (scheduled for April 8, 2020) - To be rescheduled TBD

Please stay tuned to future communications from HOC regarding all sports programs, training, extended trips and events involving all of our Members. Should you have any specific questions please post them to info@haltonoutdoorclub.ca

Please stay safe with your families and we look forward to seeing you all again as soon as we are able to resume the sports activities we all enjoy!

Thank you!

Don Logan

Interim President

Halton Outdoor Club
